

TECHNICAL SKILLS

- Languages:** Java, Python, JavaScript (ES6+)
- Frameworks & Libraries:** Spring Boot, Hibernate, React.js, React Native, Node.js
- Databases:** MySQL, MS SQL Server, MongoDB, Supabase, Firebase
- Infrastructure & APIs:** AWS, Docker, Git, Jira, Linux/Shell Scripting, JWT, OAuth 2.0, REST APIs, MediaPipe, OpenAI API
- Core Concepts:** Data Structures & Algorithms (DSA), OOP, RESTful Architecture, System Design

PROFESSIONAL EXPERIENCE

Langara College - Applied Research Centre (ARC) | Vancouver, Canada

Student Research Assistant | Sep 2025 - Present

- Led the technical design of the "Writing Lives" digital archive platform by developing functional specifications for a Content Management System (CMS), ensuring long-term data integrity and accessibility.
- Designed a culturally sensitive UI/UX framework to secure the digital preservation of historical data in compliance with strict ethical standards.

SoluSoft Corporation | Ahmedabad, India

Junior Software Engineer | Nov 2023 - May 2024

- Engineered a Fraud Investigation platform by integrating OpenText and ChatGPT APIs, significantly reducing manual data entry time through automated email summaries and case reports.
- Optimized real-time data processing for enterprise clients by building production-ready applications using React.js and Spring Boot with tuned database queries.
- Accelerated team development efficiency by 40% through the creation of 30+ reusable React components and strict adherence to Agile sprints with cross-functional teams.

Unnati Informatics LLP | Ahmedabad, India

Java Developer Intern | Feb 2023 - May 2023

- Developed a full-stack Expense Manager leveraging Spring Boot (MVC) and MySQL, enabling robust financial tracking.
- Protected sensitive financial data by implementing a secure authentication system utilizing JWT and cookies.
- Rendered real-time spending analytics by creating dynamic data visualization dashboards with JavaScript.

TECHNICAL PROJECTS

AURA | AI-Powered Creator Coaching Platform | Jan 2026 - Apr 2026

Co-Project Manager & Developer

- Engineered a cross-platform mobile application utilizing React Native and a Node.js backend, backed by a scalable dual-database architecture leveraging Supabase and MongoDB.
- Architected a private AI-coaching environment by integrating Google's Gemini API and MediaPipe, delivering dynamic, structured feedback on user speaking, presence, and facial engagement.
- Developed comprehensive progress dashboards and video enhancement tools, allowing users to track measurable skill improvements and perform non-destructive visual and audio editing.

Bloom Up | AI-Powered Family Management Platform | Sep 2025 - Nov 2025

Lead Backend Engineer

- Architected backend infrastructure for a 10-person cross-functional team, ensuring secure data handling through JWT-based authorization.
- Generated personalized financial insights and real-time visualizations by integrating the OpenAI API and Chart.js.
- Streamlined deployment pipelines by configuring automated backend hosting via Render and managing frontend availability on Amazon EC2 via Plesk.

Beacon - Team SkyLine | Transit Reporting PWA | Jan 2025 - March 2025

Lead Developer

- Engineered a Progressive Web App (PWA) allowing commuters to report transit issues in real-time, complete with offline capabilities.
- Architected a scalable, serverless backend by utilizing Firebase for data syncing and Supabase for high-performance image storage.

EDUCATION

Langara College | Vancouver, BC

PDD - Web & Mobile Application Development | 2024 - 2026

Gujarat Technological University (GTU) | Ahmedabad, India

Bachelor's in Computer Engineering | 2019 - 2023

AWARDS & ACHIEVEMENTS

- Smart India Hackathon 2022 - SAL EDUCATION (2022)
